BEGINNERS GUIDE TO CODING
Learn the basics of coding and start your journey into programming
PAGE 06

Projects

22 JAMES BOND PROJECTS
These super spy projects can help you in the most covert situations

30 SHEEP TAGGING
How a shepherd monitors his flock with the aid of Raspberry Pi

32 LICHEN BEACON
A wonderful art piece using Bluetooth tags to track your movement

34 BURTBOT
This tiny, Pi Zero-powered robot is one of the cutest you'll ever see

36 PI MOON CAMERA
Getting fantastic photos of the moon with a 3D printed lens adapter

38 MODEL RAILWAY
Controlling the lights in an automated model, including sunrise and sunset

40 FISH-EYE MONITOR
Creating an optical illusion of a fish tank in an old monitor

42 COFFEE ROASTER
Roasting coffee beans to perfection with automation to make a better cup

44 4BOT
You've seen computers play chess and go... but this one plays Connect 4

46 SCOTT TV
Building a near-indestructible TV for an autistic child

48 ALEXAPHONE
Using a Raspberry Pi and Alexa to turn an old phone into a source of knowledge

50 BEEKEEPING SERVER
How automation and smart sensors creates Raspberry Pi-powered honey

52 BITCOIN CLOCK
Visualising the progress on the block you and your group are mining

54 DISCOVERER
Meet the metal detecting robot with GPS tracking to accurately locate treasure

56 10 AMAZING ARCADES
Here's some of the best retro gaming machines that make use of Pi

62 MOTORISED SKATEBOARD
The coolest way to get around is on this Pi-powered skateboard

64 INTERNET OF LEGO
Learning about the Internet of Things by creating the ultimate LEGO town

66 HAL 9000
A very lifelike replica of the famous film computer, albeit under your control

68 ZERO 360
Taking awesome panoramas with the help of eight Pi Zeros

70 EARTHQUAKE PI
Get rumbling notifications when there's an earthquake anywhere in the world

72 TABLET OCARINA
An interactive touch tablet to help visually impaired people read music

74 TORUS
Making nightclubs cooler with an awesome music visualiser

76 WIZARD CHESS
Play a magical chess game that uses magnets instead of sorcery

78 MONOME PI
A music box that perfectly pairs old and new audio technology

80 TEEFAX
Reviving the classic information service with a Raspberry Pi

82 SISYPHUS TABLE
An incredible project that's one part Pi robot, and another part work of art

86 PILOOM
Automating fabric manufacturing using a Raspberry Pi to weave

88 PET PROJECTS
Humans aren't the only species that can have fun with a Raspberry Pi

Tutorials

98 INCREDIBLE PROJECTS
Warm up your making skills with these projects of varying difficulty levels

110 COMMAND LINE PI
Get to know what you can do in the terminal with our CLI taster

112 SYNC TO DROPBOX
Set up your Raspberry Pi to connect with the cloud storage service

114 INSTALL ALEXA PI
Install Amazon's Alexa assistant to your Raspberry Pi for voice-controlled projects

116 ADD TV-OUT TO A PI ZERO
Solder on an RCA adaptor to a Pi Zero to get composite video

118 MAKE A RASPBERRY BERET
Build an electronic wonder hat with lights and a camera

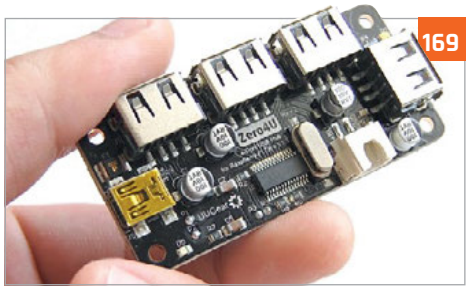
Reviews

166 **IOT PHAT**
A low cost wifi and breakout HAT that fits snugly on top of the Pi Zero

167 **RASPBERRY SQUID KIT**
This RGB LED kit teaches you about the GPIO pins and Python

168 **DRUM HAT**
Get a beat going with this musical add-on to the Raspberry Pi

169 **ZERO4U**
Add four USB ports to your Pi Zero with this ingenious add-on



170 **PICON ZERO**
A robot controller board for Pi Zero that is fully functional

172 **PI ZERO MOTOR SHIM**
This tiny board will let you control a selection of motors

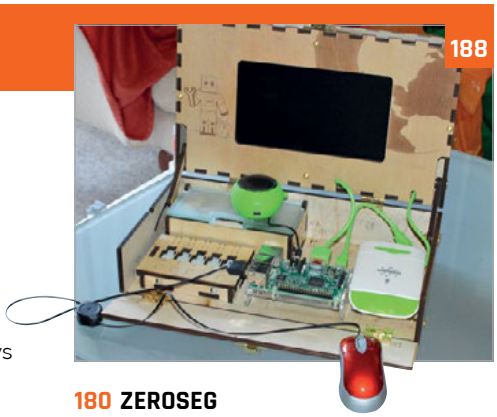
173 **ROBO HAT**
A full-sized robot controller that allows you to control a lot

174 **MOTOZERO**
Control four individual motors on your Pi Zero

176 **ANALOG ZERO**
Easily read analog sensors on your Raspberry Pi

177 **RASPIO PRO HAT**
Prototype circuits on your Pi with this inbuilt breadboard

178 **NATUREBYTES WILDLIFE CAMERA**
What beasties are visiting (or living in) your garden? This will help you find out



180 **ZEROSEG**
Seven-segment displays on-top of a Pi Zero for hacker-style countdowns

181 **PICO-8**
Create the eighties games you never could with this unique dev software

182 **ZEROBORG**
PiBorg's excellent motor controller for the Pi Zero can power little robots

184 **ENVIRO PHAT**
Add sensors to your Pi Zero with this tiny HAT that also has analog inputs

186 **LIPO SHIM**
This add-on lets you have portable power for the Pi Zero

187 **ZEROVIEW**
A case with a Pi Camera module mount and suction cups to stick it anywhere

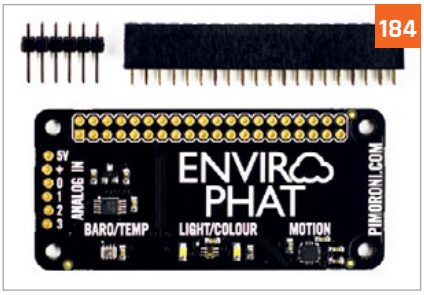
188 **PIPER**
A laptop you build yourself to access a special version of Minecraft

190 **MICRO DOT PHAT**
A mini and old school LED display that you can write messages on

191 **MCROBOFACE**
A light-up roboface that you can program from the Raspberry Pi

192 **PICAP**
This board provides capacitive touch buttons and more to a Raspberry Pi

194 **BOOKS**
Find out about some excellent coding books that can improve your skills



120 **NIGHTVISION CAMERA HACK**
Improve the capability of an IR camera for a better CCTV

122 **UNDERWATER CAMERA**
Waterproof your Raspberry Pi to explore the ocean depths

124 **CREATE A MOTION TIME-LAPSE RIG**
A motorised camera project that creates incredible timelapses

126 **BUILD AN ACTION CAM**
GoPioneer is the ultimate in extreme Raspberry Pi cameras

130 **PI THERMOMETER**
Get environmental data with your Raspberry Pi thanks to Wyliodrin

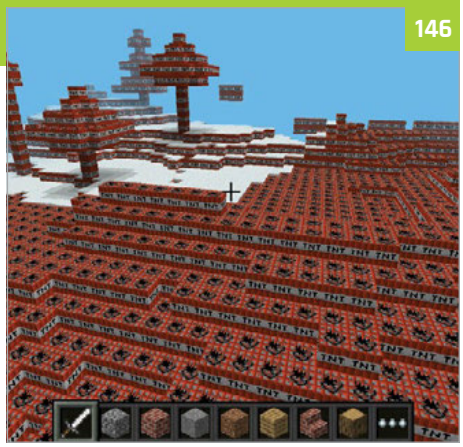
132 **MAKE A TWEET-O-METER**
Want to know how popular your tweets are? Build this circuit

134 **CREATE A PROJECT STATUS LIGHT**
Make sure you always know how far along your software project is

136 **USING NEOPIXELS ON RASPBERRY PI**
Cut through the confusion to make cool cosplay eyes with Neopixels

138 **BUILD YOUR OWN LIGHTWRITER**
Create an awesome visual illusion with spinning LEDs

140 **CONNECT A DINOSAUR TO TWITTER**
Use NodeRED to make a dino toy react to tweets about when dinner is ready



142 **UPGRADE YOUR SCALES**
Add some personality to your scales and make weight tracking easier

146 **TERRAFORM IN MINECRAFT**
Hack Minecraft with Python to transform your world as you wish

148 **MOTION-CONTROLLED PONG**
Make Capong, a special version of Pong that uses motion-controls

152 **MAKE A PIVR**
Build the ultimate PVR with a Pi and OSMC and upgrade your TV

154 **EMULATE AMIGA**
How you can create the perfect Amiga emulator on the Raspberry Pi

156 **APOLLO PI**
Emulate the Apollo mission computer on a Pi, and learn about computer history
