RASPBERRY PI FOR NEWBIES
Get to know the Raspberry Pi and everything the community has to offer
PAGE 06

Projects

20 PEGASUS LAND SPEED RECORD
Trying to break the land speed record with the help of a Raspberry Pi

24 QBEE
This dress reacts to activity on social media by lighting up

26 SELF-PLAYING ORGAN
A organ that plays itself thanks to a Raspberry Pi and some clever code

28 MUSEUM IN A BOX
Bringing priceless museum artefacts to anywhere in the world

32 ZERO PHONE
A Pi Zero-powered phone that you can make yourself

34 TRACKING TELESCOPE
Make sure you keep an eye on the right part of the night sky

36 PI MINI MINT
Squeezing a Raspberry Pi and screen into an Altoids mints tin is a bit tricky

38 PI FILM CAPTURE
Digitally converting reel-to-reel film with an old projector and a Pi

40 POLAPI-ZERO
A thermal camera project that uses the Pi Zero to take its photos

42 WINDOWS 98 WATCH
Why have a fancy modern smartwatch when you can use a 20-year-old OS?

44 PI ORDER
Improving the takeaway order system of a restaurant with Pi

46 TOUGH PI-ANO
When your piano needs to take a beating, use arcade buttons for keys

48 RASPBERRY TURK
Play chess against a (real) Raspberry Pi-powered robot

50 DAILY PROPHET
A Harry Potter-inspired newspaper that plays video

52 SATNAV ROBOT
Improve robot automation with GPS and a Raspberry Pi

54 TELE2
Step into someone else's shoes thanks to this VR invention

56 DOG TREAT MACHINE
Now you can give your dogs treats when you're not there

58 PIOCKET TINY
A very small handheld games console that you can soon buy

60 PHOTO BOOTH
Take better photos at your wedding reception with this homemade booth

62 PI BASH
Roll up and test your strength on this classic carnival game

64 12-FOOT GUITAR
This giant guitar actually works, thanks to a Raspberry Pi inside it

66 GULLIVER'S GATE
Making a miniature of New York's Times Square is easier with a Pi

68 GOOGLE PI INTERCOM
Upcycling an old intercom so that it becomes a personal assistant

70 WAVES
Print out your own voice as a waveform on a piece of paper

72 PI DECK
Scratching digital music is possible when you're using a Raspberry Pi

74 ALONSO'S ROBOTS
A Disney Pixar animator makes cute, emotive robots in his spare time

76 INSTAGIF
Print out GIFs using this camera and a special, tiny display

78 MESMERIC MIRROR
A motion-sensing mirror that lights up as you walk past it

80 FM TOUCH SYNTH
This touchscreen synthesizer is very powerful and customisable

82 3D BODY SCANNER
Get a 3D scan of yourself to show off to your friends

84 C-TURTLE
This Raspberry Pi robot looks for land-mines to help save lives

86 FRED-209
A Nerf gun robot that gives you 20 seconds to comply

88 RAPANUI
These T-shirts get printed thanks to a Raspberry Pi-based system

90 NASA ARM
Even robots like to express themselves sometimes, this one with drawings

92 TURNIN' TURBO DASHBOARD
Play arcade classic Out Run on this upcycled Tomy toy

Tutorials

96 MAKE A PI SPY CAM
This simple project lets you create a nanny cam in your own home

98 NIGHT-VISION WILDLIFE TRAP
Create a camera that works in the dark to snap animal photos

102 BUILD A WHOOPI CUSHION
This classic prank has been updated for modern times with a Pi

106 SAVE YOUR WINE
A room temperature sensor lets you know if your wine cellar is OK

108 GET UP WITH A SUNRISE ALARM
This sunrise alarm clock gets you up with the sun for a better morning

Reviews

172 RASPIO INSPIRING
Programmable LED shapes for impressive 2D and 3D displays

173 UNICORN HAT HD
256 LEDs that create a wonderful multicoloured matrix display

174 RAINBOW HAT
A multifunctional HAT that acts as an intro to Android Things on Pi

176 PI-TOP PULSE
A set of LEDs designed for pi-top laptops which are fully programmable

177 MOTE PHAT
This mini HAT can control up to four programmable LED strips

178 PAPIRUS ZERO MEDIUM
A special E Ink display that fits neatly over a Pi Zero

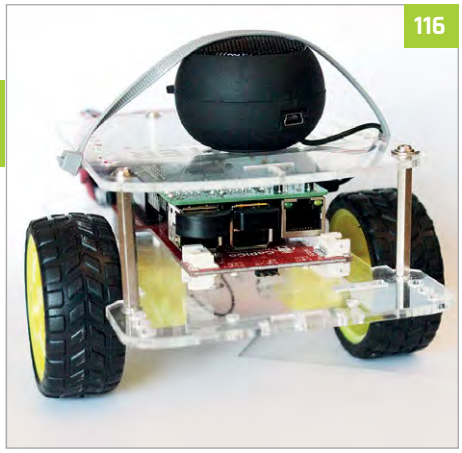
179 PAN-TILT HAT
Perfect for robots, this allows you to have a moving camera

180 OLED BONNET
A tiny screen and buttons that might be handy as a mini menu display

181 TOUCH PHAT
Capacitive touch buttons that can be slotted above the Pi Zero

182 FLICK HAT
A HAT for adding motion-gesture controls to your Pi projects

183 INKY PHAT
This more advanced E Ink display has three colours



110 USING HUE LIGHTS WITH PI
Control your Philips Hue lights using this quick Raspberry Pi guide

112 TELL THE TEMPERATURE WITH STAIRS
This LED system shows you how hot it is as you go down the stairs

114 GIVE A ROBOT EMOTIONS
Not quite artificially intelligent, but it will recognise emotions and replicate them

116 ADD VOICE CONTROL TO A ROBOT
Use Alexa to add voice commands to operate a robot

120 BUILD A MAGIC MIRROR
Make the ultimate Raspberry Pi project with this thorough guide

132 TAKE DEEPDREAM PHOTOS
Use Google's DeepDream to make trippy photos out of what you see

134 MAKE ART WITH RECORD SCRATCHING
Beautiful art is at your fingertips – literally – with this DJ Hero mod

138 FIND FOLKS WITH MARAUDER'S CLOCK
Know where your loved ones are using this Harry Potter-inspired project

140 HACK AN AMAZON DASH BUTTON
You can use an Amazon Dash button to do a lot more than order loo rolls

142 CREATE A CUT-OUT THEATRE
A digital cut-out theatre using JPGs and PNGs instead of paper

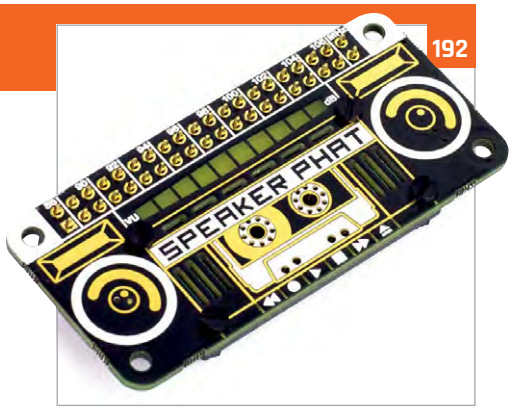
146 MAKE AN ULTRASONIC THEREMIN
Create space age music with this theremin using ultrasonic sensors

148 SAILING PI
Track your boating adventures with this GPS project

150 ADD SIRI VOICE CONTROL
Use Siri to add voice control options to any Pi project

152 AMIGA EMULATION GUIDE
Learn about emulating an Amiga the proper way on a Raspberry Pi

154 BUILD A RETRO GAMING HANDHELD
Make your very own Game Boy-like console with this big build



184 GOPIGO 3
A very simple robot kit for beginners, with plenty of learning resources

186 RASPIROVER KIT
This kit lets you create a powerful platform for robotics

188 TINY 4WD
A super-fast robot based on a feature written in The MagPi magazine

190 MEARM PI
Robot arm that's controlled with a Raspberry Pi

192 SPEAKER PHAT
Add music to your Pi project with this add-on that even has visualisations

193 JUSTBOOM DAC
A powerful DAC that can turn your humble Pi into a proper hi-fi

194 PIRATE RADIO
Create an internet radio with this fun Pi Zero project

196 JOY BONNET
This tiny controller fits onto the Pi Zero for compact gaming

198 PIJUICE
Keep your Raspberry Pi properly powered with this add-on

200 ARCADE CONTROLLER KIT
Make your own plug-and-play arcade controller with a Pi at its heart
